**Subject:** EPA visit

Mr. Muzarelli,

Thanks for letting me have some of your time during my visit the prior week. I'm going through my trip log, and wanted to check on a few things. I wondered if you had the ability to send me a photograph of the small courtyard area between the buildings in the central part of the site (south of the parking area located west of your office entrance). I thought this area had been completely covered by a new building construction, but I see from the aerial that there is still some green space in that area. Also, I wanted to see if you had any luck locating the the August 30, 1996, Source Evaluation Report. That is one piece of information that I am still missing. I'm on the road again, but please let me know if you can provide these, and thanks in advance.
